About Noro

noro

Founded with the belief that technology should bring people closer, not push them apart, Noro has grown from a bold idea into an award-winning platform recognized at ISE 2025 Best of Show (AVTechnology category).

Our team combines expertise in product design, hardware engineering, and human-centered software to deliver an experience that transforms how people connect.

About Nanolumens

Nanolumens

We are LED™. Nanolumens is a U.S.-based LED design and manufacturing company. We create world-class digital displays that transform physical spaces across diverse markets.

We are dedicated to crafting bold, immersive and long-lasting displays that bring creative concepts to life. Our displays let organizations captivate audiences and create a lasting impact.

Agenda

- Exploring the Need
- What is The Portal?
- Noro + Nanolumens Partnership
- Video Demonstration
- Key Considerations
- Success Stories
- Next Steps
- Questions & Answers

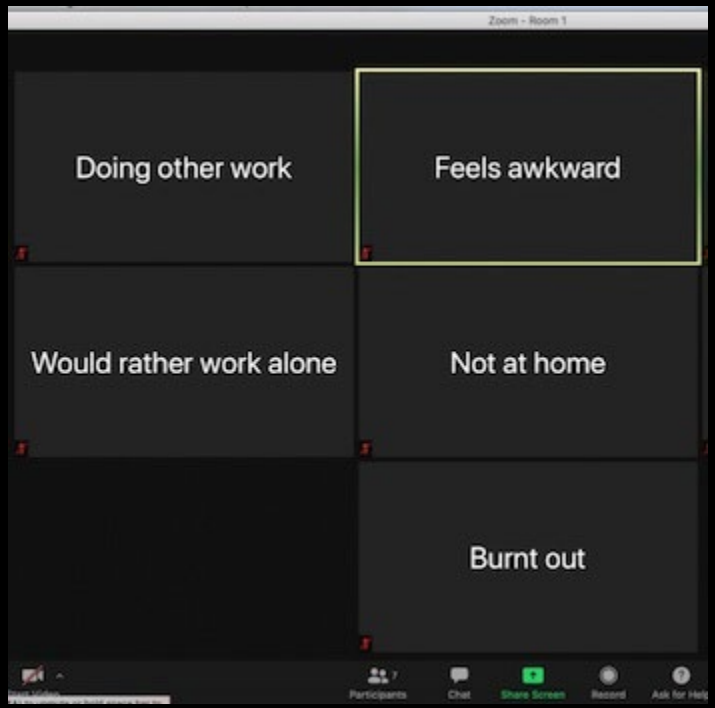
Nanolumens

The Need for The Portal

- **The Need**
- Human Connection is Irreplaceable
- Teams Need to Meet. But at What Cost?

Nanolumens

Modern Work is Broken



- Zoom Fatigue is **Real**!
- Just **23%** of employees feel engaged, costing **$1.9T** in lost productivity.
- Poor collaboration costs **$16K** per manager, each year.

Why Team Noro & Nanolumens?

"By uniting our display engineering with Noro's spatial camera intelligence, we've created a system that redefines what remote collaboration can feel like. Together, we're closing the gap between physical and virtual presence."

Kurt DeYoung, Nanolumens

"Noro's mission has always been to make distance irrelevant. We put the human element front and center of the experience, and the design-driven LED display solutions of Nanolumens bring clarity and presence to every interaction."

Teun Hilte, Noro
